

**Dottorato di Ricerca in
Genetica Molecolare, Biotecnologie e Medicina
Sperimentale**

PROGRESS REPORT

Viale Europa n. 11, Brescia

Wednesday May 29 2019 – Room G

Prof. Giuseppe Borsani Prof. Eugenio Monti

h 1.30 p.m. - Dr. Ali Eltahir Abdelrazig Mohamed

"*In Vitro* Modeling of Joubert Syndrome Using Patient-derived Induced Pluripotent Stem Cells (iPSCs)"

h 2.00 p.m. – Dr. Calzoni Enrica

"F-BAR domain only protein 1 (FCHO1) deficiency is a novel cause of combined immune deficiency in humans"

h 2.30 p.m. – Dr. Manganelli Michele

"Study of Long non-coding RNA GAS5 and miR-126-3p in hepatocellular carcinoma"

h 3.00 p.m. – Dr. Mansoury Walaa

"Investigation of the role of caveolae protein components in the progression of adipocytic neoplasms"

h 3.30 p.m. – Dr. Shoaib Muhammad

"Genetic basis of Antidepressant drug response in Major Depressive Disorder"

h 4.00 p.m. – Dr. Varinelli Marco

"Modelling Chronic Myeloid Leukemia in Zebrafish"

All interested persons are invited to participate in scientific discussion
