

FactSet for Android and iPhone

Launch the FactSet app on your mobile device to view the same global market and company intelligence that you receive on your desktop. Research and analyze a company/security with detailed information on your device such as quotes, news, estimates, filings, research, and charts. Analyze markets, access StreetAccount news, and store and manage files on FactSet Drive to view at any time.

Research a company or security quickly by tapping the Search IDs box and entering an ID.

View region-specific markets by tapping a region.

Tap any security to view detailed individual performance, or swipe left to view other entity types.

Tap the Chart button to chart the entered company or security. For more information, see Online Assistant page 21103.

Swipe up to view market news.

Add the company or security to a watchlist by tapping Add to Watchlist.

Tap the down-arrow to access additional reports and details for the company/security. These pages are also accessible by swiping left on your device.

Tap any button to view the main page for markets, news, portfolios and watchlists. Tap the Menu button to access FactSet Drive and Alerts. Files sent to Drive sync to your Workstation.

Watchlists and Portfolios

Create and edit watchlists that sync across FactSet. Monitor watchlists and portfolios by grouping securities for easy scanability and intelligent viewing. Tap into Individual security performance at any time. Track real-time portfolio performance with top/bottom five charting. Set up performance-driven alerts on your device.

Tap the **Menu** icon to select a different watchlist or create a new one.

Tap the **Edit Watchlist** icon to remove, add, or group securities for the watchlist in view.

Tap the drop-down menu to access information such as holdings, news, research, transcripts, event calendar, filings, and internal research notes (IRN). Menu options differ based on the selected watchlist or portfolio.

Tap the **Cog** icon to change column settings or the currency in view.

Tap the **Watchlist** button to create a new watch list or edit an existing one.

Tap anywhere in the **Total Contribution** area to view individual performance metrics.

Tap the **Portfolio** button to view your portfolios.
