

Seminar

“AI and law: how to regulate AI?”

Prof. Michael Lognoul
University of Namur (Belgium)

Chair: Prof.ssa Nadia Maccabiani

November, 25th, 2021

h. 14.15 CET (UTC +1)

Live presentation on: [Microsoft Teams >>](#)

The seminar consists in a presentation of AI technology, followed by explanations on several fields of law that affect most the development and exploitation of AI tools. The seminar also raises a few questions, in relation to the challenges caused by AI in terms of future legislation, and turns to the recent proposal of the Commission (AI Act proposal) in this regard. The seminar ends with a debate on those challenges, and on the path chosen by the Commission to tackle them.
