150,000 ALUMNI

Welcome to our schools. The OMNES Education Group provides its schools with the investment required to develop the curriculum which will help you become the architect of your own future and of tomorrow’s world. Your skills will be a major asset, sought after by companies, institutions and creators, in meeting the challenges presented by economic, technological, environmental and societal transitions.

JOSÉ MILANO,
Managing Director of the OMNES Education Group
Each of our schools has its own speciality: Créa Genève, EBS, ECE, ESCE, HEIP-CEDS, IFG Executive Education, INSEEC, IUM Monaco, Sup Career, Sup de Création and Sup de Pub, they all have a strong identity and yet they also have points in common: a highly qualified teaching body as well as recognised professionals in the field. Their aim is to prioritise the student experience to support employability. Our schools offer our students a differentiated learning experience with a clear objective: to develop their employability to its full potential. Whatever their chosen profession, OMNES Education Group graduates find employment with ease, not just upon leaving university but throughout their entire careers.

Our schools are ideally located in the heart of cities, such as Beaune, Bordeaux, Chambéry, Lyon, and Paris, as well as abroad, in premises equipped with the latest technology to ensure a pleasant and functional study environment, specifically designed for learning. Our campuses are large enough to accommodate several of the group’s schools simultaneously to encourage interaction. As a result, our students have the opportunity to discover fields of knowledge in addition to that of their school and to work together on multidisciplinary projects with people from different backgrounds.

The quality and Tailor-made nature of our training programmes meet a dual objective: preparing our graduates to develop the skills required by companies and finding solutions to the challenges presented by the multiple transitions taking place in the modern world.

Multicultural and respectful of diversity, the curricula at the OMNES Education Group reflect the realities of our time: in 2020, OMNES Education (formerly INSEEC U.) came 1st in France in the UI GreenMetric ranking of the higher education and research institutions most committed to CSR and sustainable development. These aspects are fully integrated into our teaching approach.

Working closely with companies, our institutions specialise in initial and professional training and share the same multidisciplinary approach, ensuring that our students develop an open and international mindset. Our network, which covers over 70 countries, comprises 600 partner universities, including prestigious institutions such as McGill University (Canada), San Diego University (United States), Politecnico di Milano (Italy), Copenhagen Business School (Denmark), East China University of Science & Technology (China) and Inha University (South Korea).

Inspired by a “Responsible Advisory Board” chaired by Christine Albanel, former French Minister of Culture and Communication, OMNES Education is adept at identifying the trends that shape our societies. Entrepreneurship, adaptation and innovation guide our teaching and our services to support our students and their successes.

Paris has always been a pioneer in implementing large-scale projects and the city is currently experiencing fast-growing economic, social and cultural vitality. The French capital never ceases to attract investors as well as numerous multinational companies. Studying in the heart of Paris is to benefit from a conducive economic and cultural setting that looks to the future.

THE ULTIMATE STUDENT CITY
The City of Lights is ranked at the top of the best student cities in terms of:
- International exposure
- Culture
- Studies
- Employment

A CAMPUS IN THE HEART OF PARIS NEAR THE EIFFEL TOWER

SUMMER IN PARIS: AN UNFORGETTABLE EXPERIENCE...
OMNES Education campus in Paris is located a few steps away from the Eiffel Tower, at the heart of Paris. The « Campus Eiffel » is a great place where students, professors, professionals and researchers meet and exchange ideas. More than 40 nationalities are represented. It is located near numerous big companies’ head offices, foundations, embassies... It enables coworking. The Campus Eiffel has been specifically designed to help students to complete their studies and to offer a great quality of life thanks to:

- A contemporary space with several building gathered around a large wooded courtyard
- Several amphitheaters with enough space for 400 students
- Free Wifi areas
- A cafeteria / restaurant and pool table are available in a smart and cosy area with a patio rest & lounge area
ESCE PARIS: INTERNATIONAL BUSINESS SCHOOL

ESCE Paris was established in 1968 and is one of the leading business schools offering a Master's degree accredited by the French Ministry of Higher Education and Research, placing itself in the top five amongst the post-baccalaureate business schools in France. ESCE shares its expertise in international business and management courses during the Campus Eiffel summer programs.

ECE PARIS: SCHOOL OF ENGINEERING

ECE Paris & Lyon: School of Engineering

Founded in 1919, ECE is a privately owned French “Grande Ecole” located in the heart of Paris. Since its creation, ECE has been committed to educating students in science and technology at the undergraduate and graduate levels. Its curriculum primarily focuses on emerging information and communication technologies. The ECE Master’s program curriculum reflects the ever-changing world we live in with evolving course work and proactive degree design that prepare out students for the challenges that lie ahead.

SUP DE PUB

Since 1986, Sup de Pub is training students in the fields of advertising, communication, creative design and digital. It benefits from an important and very active alumni network, facilitating students’ introduction to the professional world.

The school has become over the years a major actor recognized by professionals for its innovative pedagogy and its program offer, fitting companies needs at its best.

INSEEC GRANDE ECOLE

INSEEC Grande Ecole is a French Business school awarding AMBA-accredited Masters’ degrees since 2016, and an active member of the Conférence des Grandes Écoles (CGE). Located in three of the most dynamic cities of France, with campuses in the hearts of Paris, Bordeaux, and Lyon. We offer management training centered on a multidisciplinary approach and practical experience in French companies and abroad. Our classes are taught in English in the fields of Marketing, Finance, Management, and international business. With a particular attention paid to the heritage of our regions, we specialized in Luxury in Paris, Wine Management in Bordeaux, and Tourism & Hospitality Management in Lyon.
OMNES Education welcomes students & professionals from all over the world who have the curiosity to learn the French language, business cultures, innovation & entrepreneurship. OMNES Education offers 12 summer certificate programs for July 2022. On three different campus location. Each site has its own offer.

SUMMER SCHOOL
Studying within an OMNES Education school means that you benefit from our professors’ expertise in fields such as French or English language, Business cultures, Innovation & Entrepreneurship, Engineering, Media & Communication.
Each 4 week specialization summer program (10 ECTS) includes 72 hours of class time taught in English including seminars, case studies, company and cultural visits. Language summer school programs include 42 hours of class time worth 3 ECTS.
You can choose either to do focus on a specialization, or a language, or combine both.

DELIVERY OF A CERTIFICATE FOLLOWING PARTICIPATION IN THE SUMMER SCHOOL.
The course of Project Management aims to help individuals and researchers to deepen their knowledge in one of the most important and modern scientific fields.

Upon completion of this program, students become eligible applicants to take the Project Management Professional (PMP) Certification Exam.

More specifically, its purpose is to provide the necessary resources to individuals wishing to upgrade their professional prospects, by cultivating skills related to the modern methods of designing, monitoring, selection, evaluation methodology and project budgeting.

Topics such as the bureaucratic practices of project management, the management principles and the tools used in projects’ execution, the management of human resources and the formulation of an effective policy control, are included in the course, so that learners are able to use effectively the entire range of tools, techniques and methods that make up the main body of knowledge in project management.

AN INTRODUCTION TO PROJECT MANAGEMENT

PROJECT SCOPE MANAGEMENT
Topics to include: Project Scope Management Processes, Work Breakdown Structure (WBS), Project Planning and Customer Approvals and Reviews, Scope Change Control.

TIME, COST & QUALITY

PROJECT TIME MANAGEMENT
Topics to include: Project Time Management Processes, Activity List, Project Network Diagram Methods, Duration Estimating Methods, Critical Path, Pert, Schedule Development.

HUMAN RESOURCES, COMMUNICATIONS, RISK AND PROCUREMENT MANAGEMENT

PROJECT HUMAN RESOURCES MANAGEMENT
Project Human resource Management Processes, RAM (Responsibility Assignment Matrix), Motivational Theories, Conflict Management Methods, Roles and Responsibilities, Managing Change Techniques.

PROJECT COMMUNICATIONS MANAGEMENT
Project Communications Management Processes, Communications Model, Types of Communication, Project Manager Communications, Effective Team Communications and Exercises.

PROJECT RISK MANAGEMENT
Project Risk Management Processes, Risk Defined, Qualitative and Quantitative evaluation of risk.

PROJECT PROCUREMENT MANAGEMENT
Project Procurement Management Processes, Make / Buy Decisions, Elements of Contracts, Negotiation.
GLOBAL MARKETING
This course will provide an overview of international marketing and global marketing strategies. We will evaluate the environmental studies and challenges by evaluating the barriers to entry both on cultural and policy levels. Individual class projects will emphasize current trends and propose an original outlook into business possibilities of international marketing strategies of global corporations.

DIGITAL MARKETING
This course will provide an overview of E-Marketing and implement a strategic plan. Analyzing current Internet, mobile, and multi-media campaigns, we will evaluate evolving marketing techniques and promotional technologies and find ways to integrate them into an effective communications strategy. Emerging media channels and cases will be analyzed to predict future trends. Class projects will emphasize current trends and propose an outlook into the new marketing landscape.

SENSORY MARKETING
Sensory Marketing provides an overview of the strategies marketers may pursue in different industries to address their consumers’ five senses (tactile, auditory, visual, olfactory, and gustatory) in reference to both their service environments and brands.
Evolving in a world more and more connected every day raises the importance of digital image, in phase with trends and tendencies. This four-week program will focus on the new ways of consumption brought by the digital era and the strategy held by brands to stay in play. Through lectures, workshops and competitions, students will get valuable knowledge and advice from senior professors and professionals of the advertising sector.

BEHIND THE SCENES OF ADVERTISING
The first week will be an introduction to the different aspects of advertising and will give an overview of digital trends. Beginners will get to discover the field and professions involved while more advanced students will update their knowledge to French standards.

BRAND STRATEGY & DIGITAL
Brand Strategy is the emblematic profession of advertising agencies worldwide.
Our aim is to give students the theoretical background knowledge as well as practical insights into the design, production and placement of advertising campaigns. They will also acquire skills in implementation and management of complex digital strategies, showcasing websites and mobile sites, applications and social networks.

CREATIVITY & DIGITAL
Creativity is at the core of advertising for illustrating the story of the brands. That week, students will be introduced to the conception, production and delivery processes that go with creating an advertising campaign. They will also learn how to work creatively in teams during workshops, to plan and execute campaigns, in response to real industry briefs.

LUXURY & DIGITAL
Paris is the perfect place to learn about luxury market through classes and projects as well as visits. This program teaches students to define a corporate business strategy and to coordinate the implementation of marketing and communication actions using the specific codes of the luxury sector.
FRENCH COURSES IN SMALL GROUPS - FRENCH AS A FOREIGN LANGUAGE (FLE)

An intensive 4 week program that allows students to take a real step forward in learning French.

The program combines general and professional French according to the students’ levels and is based on an action-oriented pedagogy combining face-to-face courses, challenges and workshops, such as: Theatre with the “Business Comedy Club”, meeting with the “Meet French People” operation, treasure hunt and French culture.

The contents make it possible to achieve different objectives according to the levels:

- **Beginner**: Use French to manage everyday life situations
- **Intermediate**: Develop oral speaking, master the main structures of the language and express opinions
- **Advanced**: Introduce yourself professionally, master the structure of the language, be ready for an academic semester in France.
Learning English in Paris

ENGLISH COURSES IN SMALL GROUPS
An intensive 4 week program that allows students to take a real step forward in learning French.

The program combines general ans professional English according to the students’ levels and is based on an action-oriented pedagogy combining face-to-face courses, challenges and workshops, such as:

· Role plays,
· English through cinema and music,
· Cultural and language differences and treasure hunt.

The contents make it possible to achieve different objectives according to the levels:

· **Beginner:** Use English to manage everyday life situations
· **Intermediate:** Develop oral speaking, master the main structures of the language and express opinions
· **Advanced:** Introduce yourself professionally, master the structure of the language, be ready for an academic semester in English.
CROSS CULTURAL ENVIRONMENT
Students from different countries or regions will interact, bringing different values, viewpoints and cultural practices about Energy Transition. The teachers will encourage exchanges and the training case will give students the opportunity to present their country’s policy in terms of Energy Transition, Energy Efficiency and Renewable Energy.

GLOBAL ENERGY TRANSITION
Students will learn basic knowledge needed in order to understand today’s energy challenge.
This course provides students with the basic knowledge needed for understanding, assessing, and mitigating environmental issues associated with energy production, efficiency rating, storage, transmission, integration in existing portfolio, and consumption.
The focus of this course is concentrated on the key role that energy efficiency and renewable energy are playing into the context of global energy transition.

ENERGY EFFICIENCY TECHNOLOGIES PORTFOLIO
Students will learn basic knowledge needed to quantify and evaluate any economic and environmental benefits associated to energy efficiency in the different sectors (i.e. industry, transport, services, and building).
This course provides students with engineering knowledge and technique for understanding, assessing, and mitigating environmental issues associated with energy consumption. It presents the major regulation tools, policy and tool and incentive programs for accelerating penetration of energy-efficiency solutions.

RENEWABLE ENERGY TECHNOLOGIES PORTFOLIO
Students will learn basic knowledge needed to quantify and evaluate any economic and environmental benefits associated to renewable energies in the different sectors (i.e. industry, transport, services, and building).
This course provides students with engineering knowledge and technique for understanding, assessing, and mitigating environmental issues associated with renewables. It presents the major regulation tools, policy and tool and incentive programs for accelerating penetration of renewables. It also covers the challenges of high level of integration of renewables in the existing energy mix.

CONFERENCES AND STUDY TOURS
Throughout this program, students will have the opportunity to meet renowned stakeholders involved in the energy transition and to take part in a study tours allowing them to discover companies, plants, urban eco districts, buildings, etc. representative of the different initiatives linked to the Energy Transition.

STUDY CASES & APPLIED TRAINING
Throughout this program, students will have to mobilize their knowledge on applied study cases: they will learn how to evaluate the energy efficiency of a given building, how to improve it, how to design a PV or wind power plant or how assess the return on investment.
Our 4-week program will enable students to deal with the key aspects of Fashion & Luxury Management. You will meet specialists in economics, design history, marketing and more, offering you a holistic take on fashion business today.

HISTORY AND ORIGINS OF FASHION & LUXURY
This course delves deep into the history of fashion and its origins and it soon becomes apparent that fashion is so deeply rooted in human nature that you have to look for its origins a long way back in our history – indulge in a little bit of anthropology, in fact.

FASHION BRAND EQUITY MANAGEMENT
This course aims to offer insight into current issues and trends that shape strategic brand decisions in the fashion domain and to apply key branding tools to compare brands.

It also provides students with the ability to conceptualize a competitive brand plan to enhance overall brand equity.

COMMUNICATION AND NEW MEDIA IN THE FASHION SECTOR
This course introduces the students to Communication and New Media development strategies of international luxury fashion brands, from market maturity to Internet adoption. A thorough study of the sales channels including E-commerce, M-commerce, V-commerce and an analysis of the thirty levers of digital marketing as vectors of traffic on the main websites, give a complementary outlook of the necessary consideration of this new digital marketing tool and this new sales channel for the industry. A prospective analysis of the new technologies of tomorrow sheds additional light on the main technological trends to come.

CORPORATE AND SOCIAL RESPONSIBILITY IN FASHION
This course allows students to understand the global forces that drive the sustainability shift, get acquainted with CSR principles, major regulations and legislation framework.

The outcome is the ability to apply CSR principles to launching a sustainable brand project.
Because sustainability is not an option anymore when dealing with business management, we propose students to understand what it is at stake in today's society and economy, and how we need to be guided, as responsible managers, by the principle of “meeting the needs of the present without compromising the needs of future generations”.

ECOLOGICAL AND DIGITAL TRANSFORMATIONS OF ORGANIZATIONS
Societies have economic, social and political dynamics. Today, our societies are confronted with many disruptions: mainly environmental (climate change and loss of biodiversity) and technological (digitalization and workplace transformation).

The goal of this course is to address such societal disruptions that affect (and are affected by) business. Hence, we will discuss the main macro transitions in both ecology and digitalization, in order to explore the impact of such transitions within organizations.

BUSINESS ETHICS AND CORPORATE SOCIAL RESPONSIBILITY
Managing is about making decisions. But what is an ethical decision? What is a responsible company? What forms of corporate governance are most conducive to socially responsible corporate behavior? And how can ethical management be combined with overall corporate performance?

In this course we seek to understand the role of ethics for companies and business activities in general.

GREEN AND RESPONSIBLE MARKETING
Citizens are ever more aware of the planet’s dire environmental state and are demonstrating a willingness to alter accordingly their purchase of goods and services. Behaviours are changing, demand for “green” products is growing, and more reasoned and more reasonable patterns of consumption are emerging.

The course will begin with an analysis of where the line has traditionally been drawn between “responsible” and “irresponsible” in marketing, to then consider the redrawing of this line in the context of today’s pressing environmental challenges, and to finally investigate and articulate the key elements of a green and responsible marketing.

SUSTAINABLE ENTREPRENEURSHIP
The objective of this course is to open up students to forms of entrepreneurship that combine sustainable and economical goals (called responsible, sustainable, conscious, green, environmental, eco-entrepreneurship, and including social entrepreneurship). The course seeks to reveal another facet of entrepreneurship, based on founding values, a collective dimension and the integration into a hybrid ecosystem. This course also allows students to scan a certain number of sectors (fashion, luxury, tourism, food, finance, etc.) in order to observe and analyse how innovations appear under the influence of these new approaches expected by a growing part of consumers.
ADMISSION REQUIREMENTS

- Dates: 4-29 July 2022

HOME OF THE STUDENTS

London counts over 100,000 international students from over 200 different nations – that’s the most international students city in the world. It’s a global center for academic excellence.

A REAL BOOST TO YOUR CAREER

Studying in the truly global city of London to give your future career a boost for today’s job market, where language skills, cultural literacy, and an international perspective on business know-how are essential assets for an international career.

A UNIQUE EXPERIENCE AT THE HEART OF OMNES EDUCATION EXCELLENCE.

OMNES Education London Campus welcomes you in July 4-22 July 2022 for a three-week summer program.
Each 3 week (8 ECTS) includes 54 hours of class time taught in English including seminars, case studies, company and company visits.
OMNES Education London Campus is ideally located in the Marylebone High Street area between Regent’s Park and Oxford Street in Central London. The Baker Street tube station is just a 5-minute walk away.

LONDON’s increasing international influence has placed it at the summit of the worlds of Finance, Advertising and Luxury, Engineering and Technology. OMNES Education London Campus has therefore chosen to set up an entity in London to offer courses in finance, management and communications that are in keeping with the economic dynamism of the city and offer its students real career opportunities.
This program is designed to help students understand the TOEFL®. Internet-based test and successfully prepare for it. By training for this test, students will be building the skills they need to open doors abroad for their future careers.

London is an ideal location for English language training. Students will step out of the classroom and continue to be immersed in the language. It is one of the world’s foremost cultural cities, as well as offering a rich social scene for international students. This program takes place in the INSEEC London school, ideally located between Regent’s and Hyde Park, in the heart of Marylebone Village.
