

International Summer School

Physics and Application of Metasurfaces

29 th – 2 nd September 2022, DII via Branze 38, Brescia / Montisola (BS), Italy

The Summer School on Physics and Application of Metasurface will be held at the Department of Information Engineering of the University of Brescia and in Montisola, Brescia.

- The School is intended for Ph.D., Master's and last year Bachelor's students, engineers, postdocs and researchers who are interested in the fields of nanophotonics and metamaterials. Internationally renowned experts and young students will deliver a series of lectures on optical metamaterials, plasmonics, nanoengineering, THz technologies as well as photonics, microwave and commercialization of scientific results.
- Blended course: The lectures will be provided in blended mode. It is possible to participate in person or online

Where: DII via Branze 38, Brescia / Castello Oldofredi, Montisola BS

Language: The summer school will be held in English

Registration Fee: No fee is required to attend the summer school

Scientific and organizing committee

Prof. Costantino De Angelis
