Objectives
The two modules introduce the basis of English for Academic Purposes (both oral and written). These modules will be run in parallel and will be complementary.

Program
Lessons develop over a period of 10 weeks.

The English for Academic Purposes (EAP) modules aim to prepare students for practices in their disciplinary studies. The main aim of these modules is to equip students with the communicative skills to participate in particular academic and cultural contexts and to become familiar with institutional and disciplinary practices. Given the centrality of speaking for learning and negotiating meaning in the classroom and beyond, academic speaking and writing play a vital role in students’ academic performance and achievement, and in developing disciplinary knowledge.
