

Seminario didattico

Data analytics for credit ratings. Case Study

Cristian Parretta

Head of Models, Methodologies and Research

Stefano Angelini

Senior ESG & Credit Research Analyst

Martedì 29 novembre 2022, ore 11:15

Aula D5 - Via S. Faustino 64, Brescia

The initiative is part of the lecture series of the Accounting Analytics course given by Professor Laura Rocca.

The meeting will describe rating agencies, their operational and regulatory contextualisation and the role of data science in their operations.

An empirical case study will be covered to understand how to use accounting data analytics in the rating and forecasting perspective.

The meeting is open to all students.
