ANNEX A - PhDs PROGRAMMES DATA SHEETS

	PhD PROGRAMME IN
ANALYTICS FOR ECONOMICS AND MANAGEMENT - AEM	
Scientific areas	Area 01 (Mathematics and Informatics); Area 13 (Economics and
	Statistics);
Macro areas	01/A – Mathematics; 13/A – Economics; 13/B - Business
	Administration and Management; 13/D - Statistics and Mathematical
	Methods for Decisions
Duration	3 years
Starting date	December 1st, 2022
Proposing Structure	Department of Economics and Management
Coordinator	Prof. Luca Bertazzi
Curricula	None
Admission requirements	All University Degrees of the type enlisted below are eligible:
	A University degree achieved in Italy, such as University Degree (Italian Laurea) achieved pursuant to the Italian academic system prior to Ministerial Decree 509/1999, amended with Ministerial Decree 270/2004; equivalent Advanced Degree (Italian Laurea Specialistica) / Master's Degree (Italian Laurea Magistrale) or any equivalent academic Master Degree achieved from foreign Universities. For PhD admission purposes only, the equivalence between degrees awarded abroad and the Italian degrees will be assessed by the Board of Examiners. The eligibility of the foreign university degree is ascertained by the Board of Examiners of the selection procedure of the PhD Programmes, in compliance with the legislation in force in Italy and in the country where the university degree was awarded, as well as by the Treaties or international agreements on recognition of university degrees for the continuance of studies. Bachelor's Degrees are not admitted.
	Undergraduates can apply for admission, but they must have passed the degree examination by the start date of the PhD Programme activities: these candidates are required to provide the marks of the exams taken during their undergraduate career.
	Proficiency in English is required
Total number of posts available	n. 5 in total
	- n. 4 posts benefiting of a scholarship / other forms of financial
	support and
	- n. 1 posts without scholarship / other forms of financial support
Reserved posts	A maximum number of 6 posts in all PhD Programmes, financed
	by maintenance allowance, are reserved to candidates of
	Pakistani citizenship, in compliance with the MoU signed by The
	Higher Education Commission, Government of the Islamic Republic of Pakistan

	(hereinafter referred to as HEC Pakistan) and by the University of
	Studies of Brescia on 03 December 2020.
Posts linked to a research topic	See the provisions of Annex B
(among those already available)	
Selection procedure for ordinary and reserved posts	
Evaluation of Curriculum Vitae	The candidate must upload her / his curriculum vitae organized as
and academic / professional	follows:
history / Publications, etc.	Personal data
	Study Program:
	- Name of the Master's Degree
	- Institution providing the Master's Degree
	- Degree grade (if the candidate is not yet graduated, she / he must
	provide the average exam grade, an extended abstract to the Master
	thesis and the degree exam prospected date)
	- List of exams with the corresponding marks
	List of job experiences strictly related to the PhD Programme research
	topics
	List of publications, including the Master thesis and working papers (5
	publications at most)
	List of any other supporting documentation and qualifications that are
	relevant and useful for the admission evaluation process (5 documents
	at most)
	English language level (if obtained)
	In addition to the curriculum vitae, the candidate must upload the following documentation:
	- Publications, included the Master thesis or the extended abstract of the Master thesis if the candidate is not yet graduated (complete document, 5 publications at most)
	- Copy of the supporting documentation and qualifications (5 documents at most)
	- English language certificate (if obtained)
	- At least one recommendation letter
	11 least one recommendation retter
	The maximum score for the evaluation of the documents and qualifications is 60 out of 100.
	Only candidates who score at least 36 points in the evaluation of their documents and qualifications will be admitted to the
	interview.
Evaluation of a project proposal	Not envisaged
Interview	The interview will be in English language and will consist of:
	- a presentation of the study Program and of the master thesis (about 10 minutes)
	- the assessment of the candidate's motivation to carry out research on the scientific areas covered by the PhD Programme
	- the assessment of the candidate's aptitude to carry out research on the
	scientific areas covered by the PhD Programme
	- the assessment of the candidate's proficiency of English language.
	The maximum score for the interview is 40 out of 100.

	Candidates may be allowed to be interviewed remotely with the use of a video conference application, pursuant to the prescriptions envisaged by Article 8, paragraph. 4 of the Call for Admission.
	Only candidates who score at least 24 points in the interview will enter the PhD Programme final ranking list of merit to be admitted to the PhD Programme.
Place and date of interview	The interview will take place on September 15 th and 16 th , 2022, beginning at 10:00 am (Italy time), at the Department of Economics and Management of the University of Brescia, Room A6, Contrada Santa Chiara, 50, 25122 Brescia, Italy

and academic / professional	For candidates under graduation condition, at most 10 points will be
history / Publications, etc.	assigned, according to the following criterion: average mark between

101/110 and 110/110 corresponds to points from 1 to 10. Further qualifications: up to 10 points.

Presentation of a project proposal

The application form must include the presentation of a research project. Those candidates interested in one of the following curricula must submit a research project that fits into one of the topics listed below:

Appropriate Methodologies and Techniques for International Development Cooperation:

- Technology track:

The candidate illustrates the main problems relating to drinking water supply in contexts at risk due to climate change. After having hypothesized a specific problem in a limited resource context, at the candidate's choice, the candidate should draw up a research project aimed at identifying appropriate solutions to ensure the achievement of SDG 6 - target 6.1 "By 2030, achieve universal and equitable access to safe and affordable drinking water for all". The proposed research project must clearly present the objectives, the methodology and the expected scientific results.

- Health track:

With reference to the Sustainable Development Goal (SDG) number 3.3 (to eliminate HIV, TB and malaria by 2030 and control viral hepatitis infections, water transmitted diseases, and other infections) the candidate should reflect on the challenges related to TB elimination in resource limited settings. The candidate should elaborate a plan, related to a country of her/his choice, to assess whether the country adopts preventive, management and monitoring interventions against TB that are coherent with WHO recommendations. The proposed plan should include clear objectives and methods of the proposed intervention.

Mathematical Methods and Models for Engineering:

- Partial differential equations for the description of physical phenomena. The candidate is required to describe some analytical methods for the qualitative study of solutions, and techniques for their numerical simulation.
- Methods for the mechanics of solids and fluids. The candidate shall describe modern applications and/or analytical and computational methods that he/she aims at developing in the PhD Programme.

Natural Risks Assessment and Management:

- Hydrological processes and adaptation strategies to climate and anthropogenic changes. The candidate is required to describe the expected impacts of climatic and man-induced changes on the hydrological processes and the possible structural and non-structural adaptation measures in the urban environment and in the agricultural sector.
- -Analysis of hydraulic hazard in areas of high anthropization: the candidate considers typical aspects of hydraulic hazard and shows with which conceptual schemes and numerical approaches it is possible to deal with their quantification.

Structural Rehabilitation of Historical and Modern Buildings:

- The candidate should discuss a research proposal concerning novel strengthening techniques in structural or infrastructural elements/components.
- The candidate should discuss a research proposal concerning the utilization of advanced materials for the rehabilitation of structural or infrastructural elements/components.

Technologies and Processes for the Environment and Agriculture:

The candidate proposes a research project focused on one of the following topics:

- The design or management of processes and technologies for the environment protection and/or remediation;
- The sustainable management of natural resources;
- The minimisation, valorisation and resource recovery from municipal or industrial wastewater and waste, in the context of circular economy;
- Management o technological issues related to drinking water in view of climate change and emerging pollutants
- The development of production strategies for sustainability in the agricultural field;
- Technologies for the ecological transition in agriculture;
- The use of agriculture as a technique of landscape management or as a technique of mitigation of the hydrogeological hazard.

Urban Planning and Mobility:

1. The proposed research project is part of a larger collective transport project that involves the construction of an electrically powered tramway route in the city of Brescia, recently funded by the Ministry of Sustainable Infrastructure and Mobility. The tram line will cover the western areas of the City, which is not served yet, by the automatic underground and will intercept, in the Fiera area, the car traffic coming from the west, through a route of 11.6 km long and characterized by 24 stations. The road network affected by the tram route will be subject to a major redevelopment. In fact, redesigning the area to allow the transit of the tram line will serve as an opportunity to rethink and regenerate large portions of the city, which will require specific studies and research by the PhD student. As a part of this research project, the PhD student will focus primarily on the analysis of accessibility to stops/stations with insights on the rethinking and redevelopment of the urban space, in addition to the active participation in the phases that will lead to the realization of this important public work. The stop/station represents the first point of contact between the company that provides the service and the passenger who uses it. Therefore, it must be studied not only from the road side, that mainly involves the manoeuvrability of the vehicle (i.e., spaces for the vehicle), but also from the curb side (pedestrian/passengers spaces) that includes the accessibility, comfort in the waiting area as well as safety (and security) of users.

The candidate should illustrate a research proposal concerning the accessibility to stops/stations of a tramway network with respect to vulnerable users.

2. The proposed research project stems from the growing need for advanced Intelligent Transport Systems (ITS) tools and technologies to

improve the performance of road transport systems. These tools are aimed at finding Specific, Measurable, Addable, Realistic and Actual (SMART) solutions to reduce the negative externalities produced by traffic such as congestion, environmental pollution and safety. As a part of the research project, the PhD student will participate in the implementation of a decision support system for the analysis of the performance of road transport systems. This system will consist of the integration of tools, algorithms and innovative technologies for performance diagnosis, powered by a network of mobile sensors (Floating Car Data - FCD). Specifically, the following will be of particular interest: big data analyses in the field of mobility, monitoring of road infrastructures, as well as the creation of models for predictive diagnostics and improvement of road safety. Further in-depth topics will concern the comparison between databases from heterogeneous sources (sensors, data collected from sensor-vehicles, ...) as well as data mining and data fusion techniques for a better use of mobility data.

The candidate should illustrate a research proposal concerning the use of Floating Car Data (FCD) to enhance the mobility in rural contexts.

- 3. The candidate should illustrate a research proposal concerning the estimation of missed crash risk in a road network.
- 4. With reference to the UN 2030 Agenda, the candidate presents the hypothesis of developing a platform for the evaluation of Sustainable Development Goals at sub regional level.

Additionally, for those posts having a research topic and financed through scholarships or other forms of financial support, as per Annex B, it is required:

n. 1 ordinary post for EU and non-EU candidates benefiting of a three-year scholarship co-funded by the Italian Funds of the PNRR, pursuant to the Min. Decree no. 352/2022 and the Company ROTTAMI PADANA SPA, having a specific research topic about "Environmental analysis of the recovery process of ferrous and non-ferrous metal scraps and maximization of resource recovery";

The candidate reports the situation relating to the production and management of ferrous and non-ferrous metal scrap in Italy and in the world panorama. The most widely applied solutions for the valorization of resources from these residues should also be illustrated. Finally, the candidate should draw up a research project, applied to an industry that operates in the metal scrap processing sector, aimed at maximizing the recovery of resources from the scrap itself. The environmental sustainability of the proposed processes should be evaluated. The research project must clearly present the objectives, methodology and expected scientific results.

**

n. 1 ordinary post for EU and non-EU candidates benefiting of a three-year scholarship co-funded by the Italian Funds of the PNRR, pursuant to the Min. Decree no. 352/2022 and the

Company BRESCIA MOBILITA' SPA, having a specific research topic about "Evaluating the access to stops/stations of a tramway network in urban areas"

The proposed research project is part of a larger collective transport project that involves the construction of an electrically powered tramway route in the city of Brescia, recently funded by the Ministry of Sustainable Infrastructure and Mobility. The tram line will cover the western areas of the City, which is not served yet, by the automatic underground and will intercept, in the Fiera area, the car traffic coming from the west, through a route of 11.6 km long and characterized by 24 stations. As a part of this research project, the PhD student will focus primarily on the analysis of accessibility to stops/stations with insights on the rethinking and redevelopment of the urban space, in addition to the active participation in the phases that will lead to the realization of this important public work. The stop/station represents the first point of contact between the company that provides the service and the passenger who uses it. Therefore, it must be studied not only from the road side, that mainly involves the manoeuvrability of the vehicle (i.e., spaces for the vehicle), but also from the curb side (pedestrian/passengers spaces) that includes the accessibility, comfort in the waiting area as well as safety (and security) of users. In this regard, the urban environment in which the tram will run will be subject to an important redevelopment, as having to redesign the area to allow the transit of the tram route will serve as an opportunity to rethink and regenerate large portions of the City, which will need to specific studies and research by the PhD student.

The candidate should illustrate a research proposal concerning the accessibility to stops/stations of a tramway network with respect to vulnerable users.

k*

n. 1 ordinary post for EU and non-EU candidates benefiting of a three-year scholarship co-funded by the Italian Funds of the PNRR, pursuant to the Min. Decree no. 352/2022 and the Company ITALCEMENTI SPA, having a specific research topic about "Use of recycled and artificial aggregates for high-durability concrete Use of recycled and artificial aggregates for high-durability concrete"

The candidate should discuss a research proposal concerning the utilization of high performance cementitious or non-cementitious materials for the rehabilitation of structural or infrastructural elements/components.

k*

n. 1 ordinary post for EU and non-EU candidates benefiting of a three-year scholarship co-funded by the Italian Funds of the PNRR, pursuant to the Min. Decree no. 352/2022 and the Company GUIDO BERLUCCHI & C. SPA, having a specific research topic about "Development of integrated assessment systems for sustainability in viticulture"

The Candidate should identify research methodologies aimed at

developing integrated assessment systems of sustainability in viticulture that allow the comparison between different vineyard management systems and the optimization of business strategies from a sustainable perspective. The results of the research project, through the preparation of a review of the state of the art on this topic and the creation of a digital structure for the systematic collection and processing of data, must allow the identification of additional monitoring plans in order to complete the business investigation. The integrated processing of the data resulting from this survey will be aimed at developing a sustainable management model based on the business context and the preparation of an internal and external communication strategy for the company.

**

n. 1 ordinary post for EU and non-EU candidates benefiting of a three-year scholarship co-funded by the Italian Funds of the PNRR, pursuant to the Min. Decree no. 352/2022 and the Company ECO CENTER SPA, having a specific research topic about "Full scale experimentation of granular UASB technology for pre-treatment and energetic valorization of high strength wastewaters"

The candidate should discuss the issue of the treatment of industrial and liquid waste, with particular reference to the use of unconventional technologies. He should develop a research project concerning the integration of an innovative technology in a municipal wastewater treatment plant for the pre-treatment of industrial wastewater and liquid waste.

**

n. 1 ordinary post for EU and non-EU candidates benefiting of a three-year scholarship co-funded by the Italian Funds of the PNRR, pursuant to the Min. Decree no. 352/2022 and the Company LABORATORIO TECNOLOGICO LOMBARDO SRL, having a specific research topic about "Assessments of existing structural elements, with special focus on bridge components, by means of advances diagnosis techniques"

The candidate should discuss a research proposal concerning the assessments of structural elements, with special focus on bridge girders and bridge components, by means of advances diagnosis techniques

**

n. 1 ordinary post for EU and non-EU candidates benefiting of a three-year scholarship co-funded by the Italian Funds of the PNRR, pursuant to the Min. Decree no. 352/2022 and the Company SISTEMI AMBIENTALI SRL, having a specific research topic about "Development of innovative processes and criteria for the recovery as an end of waste of contaminated soil and/or sediment aimed at the production of agronomic substrates"

The candidate must illustrate the processes that can be used for the treatment of soils/sediments slightly contaminated by hydrocarbons, highlighting any critical issues from the

application point of view in relation to their recovery for agronomic purposes. The candidate then must write a research project aimed at overcoming those issues, clarifying the objectives pursued, the methodology adopted, and the expected results.

**

n. 1 ordinary post for EU and non-EU candidates benefiting of a three-year scholarship co-funded by the Italian Funds of the PNRR, pursuant to the Min. Decree no. 352/2022 and the Company AZICHEM SRL, having a specific research topic about "High performance cementitious materials for the repairing and/or rehabilitation of structural elements and infrastructural components"

The candidate should discuss a research proposal concerning the utilization of high performance cementitious or non-cementitious materials for the rehabilitation of structural or infrastructural elements/components

**

n. 1 ordinary post for EU and non-EU candidates benefiting of a three-year scholarship co-funded by the Italian Funds of the PNRR, pursuant to the Min. Decree no. 352/2022 and the Company FASTERNET SRL, having a specific research topic about "Mining and using Floating Car Data (FCD) to enhance the mobility in rural contexts"

The proposed research project stems from the growing need for advanced Intelligent Transport Systems (ITS) tools and technologies to improve the performance of road transport systems. These tools are aimed at finding Specific, Measurable, Addable, Realistic and Actual (SMART) solutions to reduce the negative externalities produced by traffic such as congestion, environmental pollution and safety. As a part of the research project, the PhD student will participate in the implementation of a decision support system for the analysis of the performance of road transport systems. This system will consist of the integration of tools, algorithms and innovative technologies for performance diagnosis, powered by a network of mobile sensors (Floating Car Data - FCD). Specifically, the following will be of particular interest: big data analyses in the field of mobility, monitoring of road infrastructures, as well as the creation of models for predictive diagnostics and improvement of road safety. Further in-depth topics will concern the comparison between databases from heterogeneous sources (sensors, data collected from sensor-vehicles, ...) as well as data mining and data fusion techniques for a better use of mobility data.

The candidate should illustrate a research proposal concerning the use of Floating Car Data (FCD) to enhance the mobility in rural contexts.

The project should be clearly related to one of the above-mentioned curricula. The project should be no more than 25.000 characters long,

	and structured as follows:
	1. Author
	2. Title
	3. A brief literature review
	4. Motivations behind the research
	5. Hypotheses and research design
	6. Methods and tools
	7. References.

	Maximum score: 40 points.
	Minimum score to be admitted to the interview: 24 points.

	The research project proposal must be uploaded on-line upon
	submission of the application.
Interview	The interview will focus on the main curriculum topics and on the
	research project proposal, envisaging a maximum of 40 points.
	Minimum score to pass the interview: 24 points.
	Candidates may be allowed to be interviewed remotely with the use of
	a video conference application, pursuant to the prescriptions envisaged
	by Article 8, paragraph. 4 of the Call for Admission.
Place and date of the interview	The date (and, if needed, the place) of the interview will be published at
	least 20 days in advance on the UNIBS web site

Prof. Marialuisa Volta (advocate)	
- Curriculum in Energy Transition - Curriculum in Sustainable production systems	
All University Degrees of the type enlisted below are eligible:	
A University degree achieved in Italy, such as University Degree (Italian Laurea) achieved pursuant to the Italian academic system prior to Ministerial Decree 509/1999, amended with Ministerial Decree 270/2004; equivalent Advanced Degree (Italian Laurea Specialistica) / Master's Degree (Italian Laurea Magistrale) or any equivalent academic Master Degree achieved from foreign Universities. For PhD admission purposes only, the equivalence between degrees awarded abroad and the Italian degrees will be assessed by the Board of Examiners. The eligibility of the foreign university degree is ascertained by the Board of Examiners of the selection procedure of the PhD Programmes, in compliance with the legislation in force in Italy and in the country where the university degree was awarded, as well as by the Treaties or international agreements on recognition of university degrees for the continuance of studies.	
Bachelor's Degrees are not admitted.	
Undergraduates can apply for admission, but they must have passed the degree examination by the start date of the PhD Programme activities: these candidates are required to provide the marks of the exams taken during their undergraduate career.	
n. 12 in total - n. 9 posts benefiting of a scholarship / other forms of financial support and - n. 3 posts without scholarship / other forms of financial support.	
A maximum number of 6 posts in all PhD Programmes, financed by maintenance allowance, are reserved to candidates of Pakistani citizenship, in compliance with the MoU signed by The Higher Education Commission, Government of the Islamic Republic of Pakistan (hereinafter referred to as HEC Pakistan) and by the University of Studies of Brescia on 03 December 2020.	
See the provisions of Annex B	
Selection procedure for ordinary and reserved posts	
Maximum score: 20/100.	
Eligible documentation:	

	- University curriculum, including the specification of the degree achieved or to be achieved, title and one- page summary of the Master thesis, and transcript of academic records, - Scientific publications
	- Any other supporting documentation and qualifications that can be
	considered relevant and useful for the admission evaluation process.
Evaluation of a project proposal	Maximum score for the research project proposal: 40/100
Evaluation of a project proposal	Haximum score for the research project proposal. (6) 100
	The research project proposal must be submitted on-line jointly with the admission form. The topic of the research project must fall within research activities that are relevant to any of the curricula of the PhD Programme.
	The research project must be presented as a written proposal, in either Italian or English, with a maximum length of 25.000 characters (excluding spaces), and should be organized as follows: 1. Author
	2. Title
	3. Summary of State-of-the-art
	4. Main motivations and goals of the proposed research proposal
	5. Detailed description of the research project
	6. Proposed scientific methodology
	7. Bibliographic references.
	Only candidates who score at least 24 points in the evaluation of their research proposal will be admitted to the interview.
Interview	Maximum score at the interview: 40/100
	The interview will focus to discuss about the research project, about the publications and the academic and professional qualifications outlined by the candidate. The interview is inclusive of the evaluation of the knowledge of the English language.
	Only candidates who score at least 24 points in the interview will be considered eligible.
	Candidates may be allowed to be interviewed remotely with the use of a video conference application, pursuant to the prescriptions envisaged by Article 8, paragraph. 4 of the Call for Admission.
Place and date of interview	The date (and, if needed, the place) of the interview will be published at least, 20 days in advance on the UNIBS web site https://www.unibs.it/en/node/1078

Selection procedure for ordinary and reserved posts		
Evaluation of Curriculum Vitae/Publications, etc.	Maximum score: 20/100	
vitac/1 ublications, etc.	Eligible documentation: - University curriculum, including the specification of the degree achieved or to be achieved, title and one- page summary of the Master thesis, and transcript of academic records, - Scientific publications	
	- Any other supporting documentation and qualifications that can be considered relevant and useful for the admission evaluation process.	
Evaluation of a project proposal	Maximum score for the research project proposal: 40/100	
	The research project proposal must be submitted on-line jointly with the admission form. The topic of the research project must fall within research activities that are relevant to any of the curricula of the PhD Programme. The research project must be presented as a written proposal, in either Italian or English, with a maximum length of 25.000 characters (excluding spaces), and should be organized as follows: 1. Author	
	 Title Summary of State-of-the-art Main motivations and goals of the proposed research proposal Detailed description of the research project Proposed scientific methodology Bibliographic references. 	
	Only candidates who score at least 24 points in the evaluation of their research proposal will be admitted to the interview.	
Interview	Maximum score for the oral: 40/100 The interview will focus to discuss about the academic and professional qualifications outlined by the candidate, on a thematic area of the PhD Programme and will be designed to assess the motivation and ability of the candidate to scientific research. The interview is inclusive of the evaluation of the knowledge of the English language. Only candidates who score at least 24 points in the interview will be considered eligible.	
	Candidates may be allowed to be interviewed remotely with the use of a video conference application, pursuant to the prescriptions envisaged by Article 8, paragraph. 4 of the Call for Admission.	
Place and date of the interview	The date (and, if needed, the place) of the interview will be published at least, 20 days in advance on the UNIBS web site https://www.unibs.it/en/node/1078

MOLECULAR GENETICS.	PhD PROGRAMME IN BIOTECHNOLOGIES AND EXPERIMENTAL MEDICINE
Scientific areas	02 – Physical Sciences; 05 – Biological Sciences; 06 – Medical Sciences
Macro areas	02/D; 05/E; 05/F; 05/H; 05/I; 06/A; 06/C; 06/D; 06/F; 06/G; 06/H;
	06/M; 06/N; 11/E
Duration	3 years
Starting date	December 1st, 2022
Proponent Structure	Department of Molecular and Translational Medicine
Coordinator	Prof. Eugenio Monti
Curricula	- Molecular Genetics Applied to Medical Sciences
	- Biotechnologies for the Health and the Environment
	- Forensic Medical Sciences
Admission requirements	LMG/01 University Degree in Law
-	LM-6 Biology
	LM-7 Agricultural Biotechnologies
	LM-8 Industrial Biotechnologies
	LM-9 Medical, Veterinary and Pharmaceutical Biotechnologies
	LM-13 Pharmacy and Industrial Pharmacy
	LM-18 Computing
	LM-21 Biomedical Engineering
	LM-22 Chemical Engineering
	LM-41 Medicine and Surgery
	LM-42 Veterinary Medicine
	LM-46 Dentistry and dental prostheses
	LM-54 Chemical Sciences
	LM-55 Cognitive Sciences
	LM-70 Food Sciences and Technologies
	LM-82 Statistical Sciences
	A University degree achieved in Italy, such as University Degree (Italian Laurea) achieved pursuant to the Italian academic system prior to Ministerial Decree 509/1999, amended with Ministerial Decree 270/2004; equivalent Advanced Degree (Italian Laurea Specialistica) / Master's Degree (Italian Laurea Magistrale) or any equivalent academic Master Degree achieved from foreign Universities. For PhD admission purposes only, the equivalence between degrees awarded abroad and the Italian degrees will be assessed by the Board of Examiners. The eligibility of the foreign university degree is ascertained by the Board of Examiners of the selection procedure of the PhD Programmes, in compliance with the legislation in force in Italy and in the country where the university degree was awarded, as well as by the Treaties or international agreements on recognition of university degrees for the continuance of studies.
	Bachelor's Degrees are not admitted. Undergraduates can apply for admission, but they must have passed the degree examination by the start date of the PhD Programme activities: these candidates are required to provide the marks of the exams taken during their undergraduate career.
Total number of posts available	during their undergraduate career. Proficiency in English is required. n. 5 in total

	- n. 4 posts benefiting of a scholarship / other forms of financial
	support and
	- n. 1 post without scholarship / other forms of financial support
Out of which: Reserved posts	n. 1 reserved to candidates having an eligible academic degree achieved in foreign Universities.
Additional Reserved posts	- n. 1 post benefiting of a scholarship, reserved to candidates eligible under the European Call HORIZON-MSCA-2021-DN-01 - Project:
	101071886 CISSE. Candidate in the process of being identified through
	a separate EU evaluation procedure.
	A maximum number of 6 posts in all PhD Programmes, financed
	by maintenance allowance, are reserved to candidates of
	Pakistani citizenship, in compliance with the MoU signed by The
	Higher Education Commission, Government of the Islamic Republic of Pakistan (hereinafter referred to as HEC Pakistan) and by the
	University of Studies of Brescia on 03 December 2020.
Posts linked to a research topic	None
(among those already available)	
Selection 1	procedure for ordinary and reserved posts
Evaluation of Curriculum	Maximum score 25 points, as follows:
Vitae/Publications, etc.	- Master's Degree final maximum score: 7. If the candidate is not yet
	graduated, instead of the final grade the average grade of the passed exams will be taken into consideration.
	CAAIIIS WIII DC CARCII IIITO COIISIGCIAUTOII.
	- Publications and abstracts in extenso, maximum score: 6;
	- Other qualifications (specialization, master, lab training, conference
	attendance, language certificates, PhD Degrees, etc.); maximum score:
	- Other activities (research, professional activities, etc.) that are relevant for the PhD Programme or one of the curricula); maximum score: 6.
Evaluation of a project proposal	Not envisaged
Interview	The interview has a maximum score of 75 points.
	The interview is passed if the candidate obtains a mark of at least 45.
	The interview will focus to discuss the candidates' qualifications
	provided; on a thematic area of at least one of the curricula indicated by
	the candidate and will be designed to assess the motivation and ability
	of the candidate to scientific research. The interview is inclusive of the evaluation of the knowledge of the English language.
	evaluation of the knowledge of the English language.
	Candidates may be allowed to be interviewed remotely with the use of a
	video conference application, pursuant to the prescriptions envisaged by
	Article 8, paragraph. 4 of the Call for Admission.
	Those candidates taking the interview remotely must enclose in their
	online application the "On-line interview form", downloadable from
	the website, duly completed and signed, also indicating your remote
	connection contact.
Place and date of the interview	The date (and, if needed, the place) of the interview will be published at
	least, 20 days in advance on the UNIBS web site https://www.unibs.it/en/node/1078

Admission requirements	LM-6 Biologia; LM-7 Biotecnologie agrarie; LM-8 Biotecnologie industriali; LM-9 Biotecnologie mediche, veterinarie e farmaceutiche; LM-13 Farmacia e farmacia industriale; LM-17 Fisica; LM-18 Informatica; LM-21 Ingegneria biomedica; LM-22 Ingegneria chimica; LM-23 Ingegneria civile; LM-25 Ingegneria dell'automazione; LM-26 Ingegneria della sicurezza; LM-27 Ingegneria dell'automazione; LM-30 Ingegneria della sicurezza; LM-27 Ingegneria delle telecomunicazioni; LM-28 Ingegneria elettrica; LM-29 Ingegneria gestionale; LM-30 Ingegneria energetica e nucleare; LM-31 Ingegneria gestionale; LM-32 Ingegneria per l'ambiente e il territorio; LM-40 Matematica; LM-41 Medicina e chirurgia; LM-44 Modellistica matematico-fisica per l'ingegneria; LM-46 Odontoiatria e protesi dentaria; LM-47 Organizzazione e gestione dei servizi per lo sport e le attività Motorie; LM-53 Scienza e Ingegneria dei Materiali; LM-54 Scienze chimiche; LM-60 Scienze della Natura; LM-61 Scienze della nutrizione umana; LM-66 Sicurezza Informatica; LM-67 Scienze e tecniche delle attività motorie preventive e adattate; LM-68 Scienze e tecniche dello sport; LM-69 Scienze e tecnologie agrarie; LM-70 Scienze e tecnologie alimentari; LM-71 Scienze e tecnologie geologiche; LM-75 Scienze e tecnologie per l'ambiente e il territorio; LM-79 Scienze geofisiche; LM-82 Scienze statistiche; LM/SNT1 Scienze infermieristiche e ostetriche; LM/SNT2 Scienze riabilitative delle professioni sanitarie; LM-SNT3 Scienze delle professioni sanitarie della prevenzione. A University degree achieved in Italy, such as University Degree (Italian Laurea) achieved pursuant to the Italian academic system prior to Ministerial Decree 509/1999, amended with Ministerial Decree 270/2004; equivalent Advanced Degree (Italian Laurea Specialistica) / Master's Degree (Italian Laurea Magistrale) or any equivalent academic Master Degree achieved from foreign Universities. For PhD admission purposes only, the equivalence between degrees awarded abroad and the Italian degrees will be assessed by the B

	Programmes, in compliance with the legislation in force in Italy and in the country where the university degree was awarded, as well as by the Treaties or international agreements on recognition of university degrees for the continuance of studies.
	Bachelor's Degrees are not admitted.
	Undergraduates can apply for admission, but they must have passed the degree examination by the start date of the PhD Programme activities: these candidates are required to provide the marks of the exams taken during their undergraduate career.
Total number of posts available	n. 13 in total - n. 10 posts benefiting of a scholarship / other forms of financial support and - n. 3 posts without scholarship / other forms of financial support
Reserved posts	A maximum number of 6 posts in all PhD Programmes, financed
	by maintenance allowance, are reserved to candidates of
	Pakistani citizenship, in compliance with the MoU signed by The
	Higher Education Commission, Government of the Islamic Republic of Pakistan (hereinafter referred to as HEC Pakistan) and by the
	University of Studies of Brescia on 03 December 2020.
Posts linked to a research topic (among those already available)	See the provisions of Annex B
Selection pr	rocedure for ordinary and reserved posts
Evaluation of Curriculum Vitae	Preliminarily, the Board of Examiners will evaluate the candidates'
and academic / professional	Curriculum Vitae. The Candidate will be admitted to the qualifications
history / Publications, etc.	evaluation, as a result of the positive relevance assessment between the Curriculum Vitae and the research areas of the PhD Programme.
	Evaluation score: 0-20 points as follows:
	a) Score of the Degree: 0-10 points or, in alternative, if the candidate is
	not yet graduated, instead of the final grade the average grade of the
	passed exams will be taken into consideration.
	b) Publications: 0-4 points. c) Other qualifications: 0-6 points
Evaluation of a project proposal	The maximum score: 0 - 40 points
=union or a project proposat	Only candidates who score at least 24 points in the evaluation of their
	research proposal will be admitted to the interview.

A 4.4%	D	
Additional Required	Documentation	Candidates must include in their application: 1) A detailed Curriculum Vitae, including:
Required		• A title and summary of one page of the thesis (for undergraduates
		admitted conditionally, in the absence of the thesis, a draft of it signed
		by the supervisor).
		• The degree score, or, if they are obtaining the degree, a list of the
		examinations with the relative score.
		• Any training experience (internships, thesis, double degrees) carried
		out abroad with a brief description of the performed activity.
		2) A research project, which must be presented as a written proposal,
		having a maximum length of 25.000 characters (including spaces), and
		should be formatted as follows:
		• Author
		• Title
		• Summary of State of the art
		Detailed description of the research project
		Bibliographic references.
		2) List of the exicutific publications
		3) List of the scientific publications.
		4) A brief statement in which the candidate describes the scientific
		interest and the motivations for the application to the doctoral program.
		5) Reference letters, if available.
		3) Reference letters, if available.
		The documents required must be written in English language.
Interview		The Interview includes a discussion on the presented research project
		proposal, on the possible candidate's list of publications and
		qualifications, and an oral evaluation of English language skills.
		The maximum score for the evaluation of the Interview is 40 points.
		The Interview is considered passed unless the candidate has achieved a
		score of at least 20.
		The Interview may be envisaged to take place remotely for all
D1 11 (candidates, also due to the emergency represented by COVID-19.
Place and date of	tne interview	The date (and, if needed, the place) of the interviews will be published
		at least, 20 days in advance on the UNIBS web site
