SEMINAR

Regulation of AI: evolution of the legal framework and future challenges

Dr. Michael Lognoul
University of Namur

Chair: Prof. Nadia Maccabiani
University of Brescia

Friday, November 3rd 2023, 9:00 AM
Room D5, Brixia Building

The seminar starts with an introduction to AI technology, followed by a synthesis of the most important bodies of law that currently apply to AI tools. Next, the presentation discusses the AI Act Proposal and the AI Liability Proposal, which are two key elements of the future EU legal framework. Finally, several major challenges raised by AI are highlighted, and potential legal solutions to these challenges are discussed.
