

SEMINAR

Next Generation EU – a constitutional analysis of a historical initiative

Prof. Paul Dermine
Université Libre de Bruxelles

Chair: Prof. Nadia Maccabiani
University of Brescia

Wednesday, June 5th, 2024, 10:00 AM
Aula D4, Brixia Building

The adoption of the recovery plan 'Next Generation EU' during the COVID-19 pandemic was an important moment for the European Union. As an embryo of autonomous fiscal capacity, it will exercise a long-lasting effect on the trajectory of the European polity. The presentation will come back to the most salient constitutional aspects of the initiative, and investigate the main questions it raises, especially in view of its potential replication in the future.
