OF BRESCIA

DEPARTMENT OF ECONOMICS AND MANAGEMENT

SEMINAR

An overview of regression methods with functional data

Prof. Julien Jacques

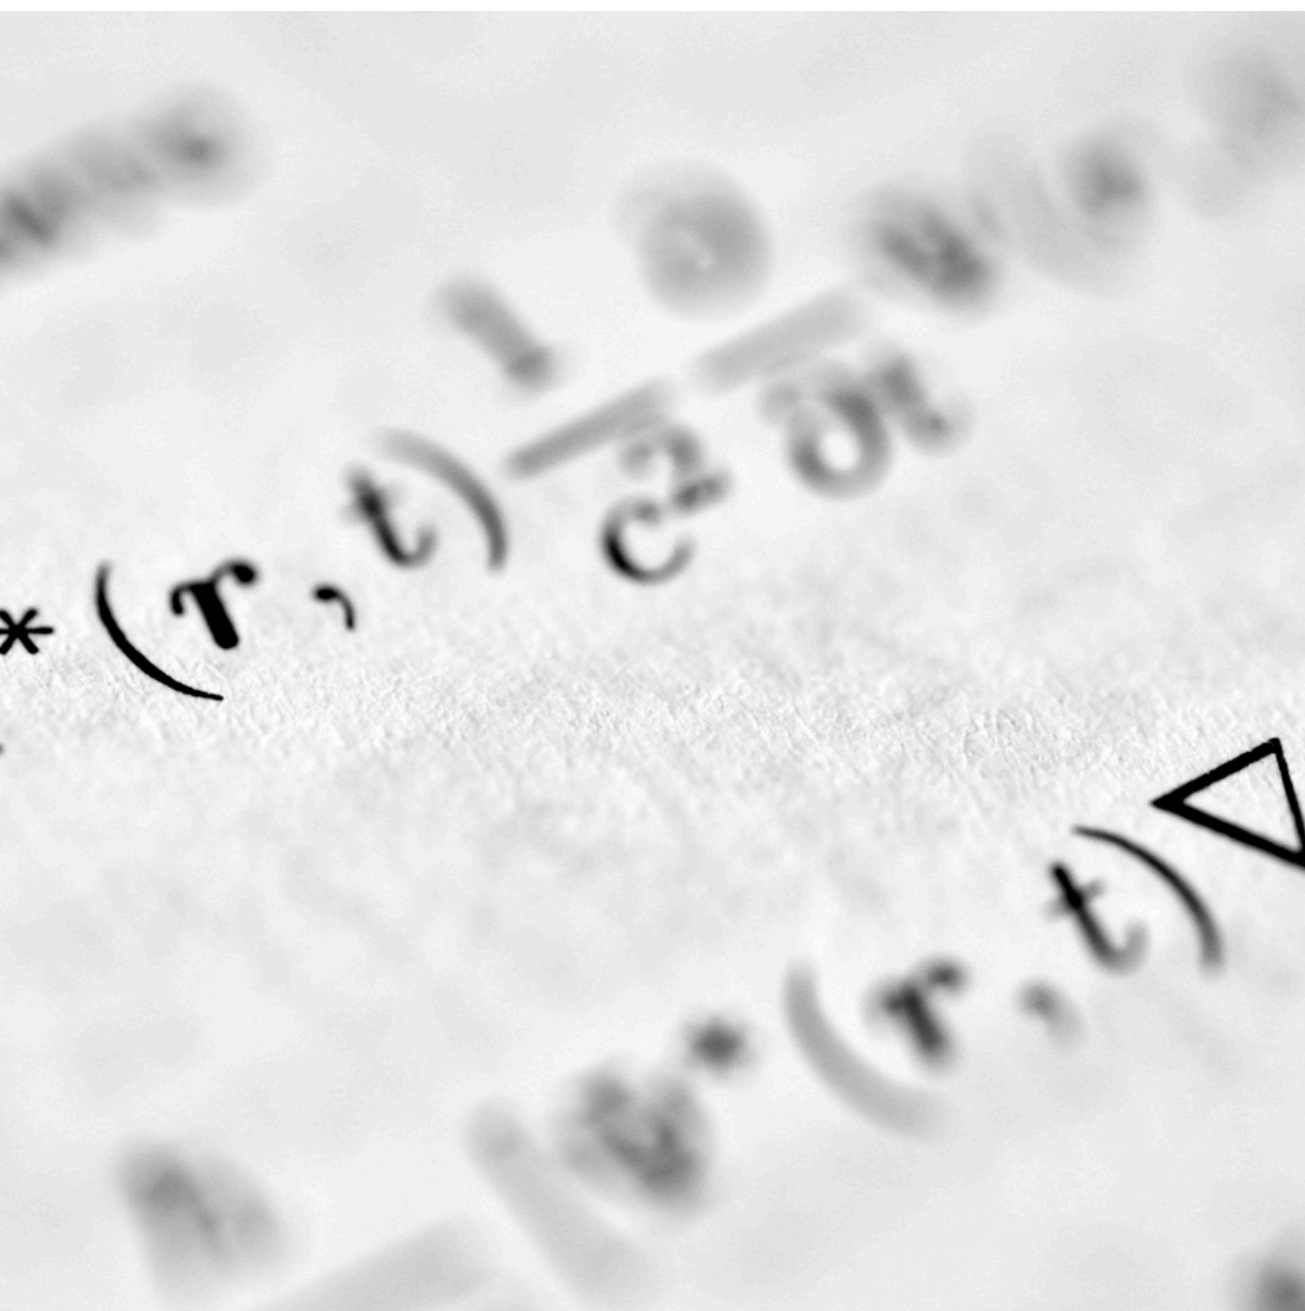

University Lumière Lyon 2

Chair: Prof. Paola Zuccolotto

University of Brescia

Wednesday, May 14th, 2025, 3 PM

Room C1, C.da S. Chiara 50

In this talk, we will deal with linear regression with functional variables; we will address the cases of functional responses, functional covariates, and both at the same time. We will present the state of the art as well as recent advances in the field and illustrate these methods using cycling data.
