

UNIVERSITÀ  
DEGLI STUDI  
DI BRESCIA

Annex 1 DR 524 of 31 July 2018

## 34<sup>Th</sup> CYCLE PHD COURSES A.Y. 2018/2019

### Placed in reserved accommodation at the University Residences

For the academic year 2018/2019 the University of Brescia issues this call for applications for the conferral of no. 12 accommodation places intended for students registered in the University of Brescia's academic year 2018/19 for 34th cycle PhD courses.

Students who wish to take part in the allocation for places in the accommodation must submit the application for participation in the contest by 13.00 (Italian time zone) on 12 October 2018, via email to the following address: [diritto-studio@unibs.it](mailto:diritto-studio@unibs.it)

The application shall be accompanied by:

- the ISEE 2018 declaration (Equivalent Financial Situation Indicator) for Italian citizens
- self-certification as best defined in the following paragraph for citizens.

Candidates who use self-certification must subsequently submit the tax documentation necessary to one of the affiliated CAF (government office for tax assistance and information) by 15 December 2018, to determine the EQUIVALENT ISEE (Equivalent Financial Situation Indicator) 2018 and to verify what has been self certified.

#### Criteria for the formation of the single ranking

Up to a maximum of 80 points, the ranking is determined according to the final score achieved by each candidate in the test for admission to the PhD courses for which he is registered, standardised by dividing it by the maximum final score assigned to the same course according to the formula (Admission Score/Maximum Score)\*80 . To this value a further maximum 20 points is added to this "economic situation score" obtained based on the formula  $(1 - (ISEEEU/23,000)) * 20$ .

With regard to their economic situation, those registered with their title achieved abroad and resident there, should present self-certification attesting to their situation by filling in the model, available online. The scores awarded to 3 categories of economic situations are shown in the model:

CATEGORY	ISEE RANGE	ECONOMIC SITUATION POINTS
I	from € 0 to € 7,666.00	20.00
II	from € 7,667 to € 15,332.00	13.33
III	from € 15,333 € 23,000.00	6.66

#### Assignment of accommodation places

Service Student Services/U.O.C.C. Services

## UNIVERSITÀ DEGLI STUDI DI BRESCIA

The accommodation is awarded to the winning students who are regularly registered to one of the 34th cycle PhD courses for the academic year 2018/19, within the limits of the places competed for; any further places that may become progressively available will be awarded on the basis of the ranking.

On equal terms in the single ranking, the younger student will be left behind.

### **Definition of the tariffs for access to the residences**

Students who will be assigned accommodation based on the criteria indicated above must produce the tax documentation, which will be communicated, necessary for the determination of the corresponding category to the “economic condition” ISEEU before **15 DECEMBER 2018**. Pricing of the residential service will correspond to that of the attributed category from the month after presentation of the ISEEU. Until that date the pricing category attributed will be the maximum one. Failure to submit the tax documentation within the deadlines indicated will result in attribution of the maximum category. The restaurant service is also determined according to the economic situation category.

“Income categories” shall mean categories defined with the call for application of the scholarship, Chapter 4, “Call for applications for services offered to students for the A.Y. 2018/2019” published on the University’s internet portal with Chancellor’s Decree no. 443 of 9 July 2018.

Access charges to the residences and the meal plan are those published on the University portal :
