First Neural Stem Cell Symposium
Stem Cells in Development and Disease

09:15-09:30 Welcome Introduction by Maurizio Memo, Pro-Rector for Research, Univ. of Brescia, Italy
Chairs: Ginetta Collo, Antonella Consiglio

09:30-10:20 Gianvito Martino, Neuroimmunology Unit, Ospedale San Raffaele, Milan, Italy
Neurogenic and non neurogenic role of neural stem cells

10:20-11:00 Verdon Taylor, Embryology and Stem Cell Biology, Dept. of Biomedicine, Basel, Switzerland
Mechanisms of TDP-43 induced cell death during neural development

11:00-11:30 Coffee Break

11:30-12:20 Peter Reinhardt, Max Planck Institute for Molecular Biomedicine, Münster, Germany
Human iPSC based models of PD and ALS for research and drug discovery

12:20-13:00 Ravi Jagasia, Hoffman-La Roche Ltd., CNS Discovery, Basel, Switzerland
Human pluripotent stem cells in CNS Discovery: from adult neural stem cells to autism spectrum disorders

Martedì 18 Novembre 2014
Dipartimento di Medicina Molecolare e Traslazionale
Facoltà di Medicina e Chirurgia
Aula C1, 3° piano Palazzetto Polifunzionale
Viale Europa 11
25123, Brescia
Italia
