Students awarded scholarships for the academic year 2017/2018 that obtain 33 CFU (University Credits) by 10 August 2017 will have their scholarships renewed under the same financial conditions for the academic year 2018/2019. This limit may be lowered for specific and exceptional cases, upon evaluation by the Chancellor's Delegate for the coordination of internationalisation activities.

Payment of scholarships:

The scholarships shall be issued to the successful applicants, provided that they are correctly enrolled in the first (2017/2018) or second (2018/2019) academic year of the Master's Degree Programme. Please note that, for Master's Degree Programmes in Management (International Business curriculum) and Science and Technologies for Population Health and Wealth, the successful scholarship applicants will have to pass the selection tests according to the methods established by the relative calls for admission applications, which will be published from May 2017.

The scholarships shall be paid in a single instalment within 30 days of enrolment for the academic year 2017/2018 or 2018/2019.

The successful applicants will be required to present their tax documents, which will be detailed in subsequent notification, in order to determine their "financial situation" through calculation of their ISEE (Indicatore di Situazione Economica Equivalente - Equivalent Financial Situation Indicator).

University enrolment fees are understood to be paid by the student and are determined based on their ISEE.

Students requiring accommodation in the University residences will be charged a monthly rate that is established based on their ISEE and the type of room.

They will also be awarded access to the catering service based on their ISEE category.

The scholarships will be subject to withholding tax and social security contributions provided for by current legislation, including costs borne by the University. The total scholarship excluding taxes is established according to the financial and household situation of the successful applicant, e.g. the
minimum taxation applied currently is 8.5%, equivalent to the IRAP (regional tax on production activities) to be deducted from the scholarship in case of application of personal tax deductions.

The total cost, including taxes, for 10 scholarships for the A.Y. 2017/2018 and 2018/2019, including costs borne by the university administration shall be taken from the MIUR funds for internationalisation 2011 - 2020.
