
BIOGRAPHICAL SKETCH

NAME Damiano Rizzoni	POSITION TITLE Full Professor of Internal Medicine

Born in Fano (Ps) Italy, on August 4th 1960.

Education

1985 Medical Degree: University of Brescia (cum laude).

1990 Specialization in Internal Medicine, University of Brescia (cum laude).

1994 Specialization in Cardiology, University of Pavia

A. Positions and Honors

1985-89 Resident: Clinica Medica, University of Brescia.

1989: Visiting Researcher, Department of Pharmacology, University of Aarhus, Danmark

1989 Clinical Assistant, Bone Marrow Transplantation Unit, Spedali Civili di Brescia

1990 Clinical Assistant, Clinica Medica, University of Brescia.

1991 Clinical Assistant, Patologia Medica, University of Brescia.

1998 Clinical Assistant, Internal Medicine, University of Brescia.

1999 Assistant Professor, Internal Medicine, University of Brescia.

2001 Associate Professor of Internal Medicine, University of Brescia

2011 Full Professor of Internal Medicine, University of Brescia

In 1986 he passed the Foreign Medical Graduates Examination in the Medical Sciences (FMGEMS) with a score of 80/100.

In 1987 he was awarded the Roussel Institute Fellowship for a research on cardiovascular changes during ageing.

In 1987 he was awarded the Formenti Prize for a research on cardiovascular effects of ketanserin in aged hypertensive patients.

In 1989 he was awarded a Fellowship of the Italian Society of Hypertension for a research on cardiovascular effects of adrenaline in normotensive subjects with and without family history of hypertension,

In 1995 he was awarded a Fellowship of the Italian Society of Hypertension for a research on the effects of antihypertensive therapy with ACE inhibitors and angiotensin II type 1 receptor blockers on structural alterations in small resistance arteries of spontaneously hypertensive rats.

In 2012 he was awarded a prize for the best paper published in Hypertension, Journal of the American Heart Association, for Clinical Sciences.

Prof. Rizzoni is one of the Top Italian Scientists (www.topitalianscientists.org): H-index: 58.

Memberships

Member of the Italian Society of Hypertension

Member of the Italian Society of Cardiology

Member of the American Society of Hypertension

Member of the Italian Federation for Sport Medicine

Member of a Working Group of the National Research Council (CNR) (since 1985).
Member of the European Society of Hypertension.
Member of the High Blood Pressure Research Council of the American Heart Association.
Member of the International Society of Hypertension
Member of the Editorial Board of *Hypertension and Journal of Hypertension*.

Scientific Interests

The interests of Prof. Rizzoni have focused on the following topics:

- Neural and hormonal influences on renal sodium excretion in arterial hypertension and other cardiovascular diseases. In particular: renal noradrenergic and dopaminergic systems, natriuretic hormones.
- Clinical pharmacology and therapy of antihypertensive agents.
- Non invasive ambulatory blood pressure monitoring.
- Cardiopulmonary receptors control of heart rate, blood pressure and incretion of several hormones (ANP, ADH, PRA, aldosterone)
- Cardiovascular vascular structural and functional changes in hypertension, diabetes mellitus, acromegaly, etc. Determinants and clinical significance of structural alterations in the microcirculation.

More than 1000 publications (abstracts, papers), 215 of them in PubMed/Medline. Impact factor: >800.

Clinical activity

Prof. Damiano Rizzoni is the Director of the Division of Medicine, Istituto Clinico Città di Brescia, Brescia, Italy.

Teaching activity

Prof. Damiano Rizzoni teaches Internal Medicine, Emergency Medicine and Clinical Therapeutics in the University of Brescia School of Medicine

Clinical Trials.

Prof. Damiano Rizzoni participated as principal investigator or co-investigator to many international and national clinical trials (in accordance to GCP) on cardiovascular diseases.

Experience in collaborative research.

Prof. Damiano Rizzoni participated as principal investigator or co-investigator to many international and national clinical trials (in accordance to GCP) on cardiovascular disease.

He has also participated to projects supported by the European Community:

- BIOMED I, project EURAD (European Working Group on Resistance Artery Disease), 1994-1998.
- Framework VI, Project “ Ingenious HyperCare”. LSHM-CT-2006-037093: 2006-2012.
